

# Local HSIP Changes for Cycle 10 and Cycle 11

# Local HSIP Changes

- Why not stay with SSARP?
  - SSAR had limited requirements
    - Did not include partnerships
    - No public outreach was necessary
    - No discussion of existing efforts
    - No evaluation and / or implementation
    - No enforcement or education discussion

# Local HSIP Changes

- Moving Forward with having an LRSPs as a requirement
  - Cycle 10 – call will be April 2020, applications due end July / August timeframe
    - LRSP's will be recommended but not required
    - Agencies with LRSPs or equivalent will be given priority should there be more applications than funding
  - Cycle 11 – call will be April 2022
    - LRSP or equivalent will be required in order to compete for HSIP grant funding

# Local HSIP Changes

- Moving Forward with LRSPs as a requirement
  - In both cycles, SSARP, Vision Zero Plans, Tribal Safety Plans will be acceptable, as equivalent
  - Other plans approved on a case by case basis.
  - We have notified current SSAR recipients that if they have time and funding, to add components of the LRSP to their SSAR report

# LRSP Funding

- A total of \$80,000 will be available for each Plan
  - \$72,000 SSAR / LRSP funds
  - \$8,000 Local Funds
  - Additional funds may be added if agency wants more details/ analysis added to the plan such as safety project scoping, etc (like the SSAR)
  - A call for LRSP funding will go out later in September
  - To be used only for the development of the LRSP

# LRSP Training

- LTAP will be providing LRSP training on an as needed basis. Currently have two LRSP classes scheduled (month/yr).
- Notification will be sent out to register for the classes
- November 2019 - CSUS
- February 2020 - Camarillo
